2. I attach a proposed memorandum for you to send to the DDS along the lines we discussed. I neglected to list "politics" which is also one of the items against which discrimination is prohibited under the CSC regulations. However, you may wish to make other changes in this memo so I will make this correction after you have amended and/or approved it.

3. I believe you will be well advised to make a statement along the lines of the last sentence in paragraph 3 and to give consideration in future IG reports to making a positive statement that there were, or were not, evidences of discrimination found in the course of the survey.
